

Yuval Cohen

CREATIVE TECHNOLOGIST

Creative Director · Producer · AI & 3D Production Systems
Bridging storytelling, immersive systems, AI-enhanced production, and technical creative execution.
[051-2868309](tel:051-2868309) | yuval@uvixstudio.com | [LinkedIn](#) | [Portfolio](#) | [TikTok](#)

PROFESSIONAL SUMMARY

Creative Director and Technion-certified Product Manager with over 20 years of experience architecting hybrid production pipelines that bridge design intuition, realtime 3D workflows, and emerging technologies. Specialized in unblocking complex creative productions by mastering technical constraints, building custom-coded tools, and structuring reliable workflows. A hands-on leader focused on translating ambitious concepts into stable, high-impact interactive systems and visual narratives.

EDUCATION

- Certified Product Manager**
Technion – Tel Aviv, 2020
- Professional Game Design**
Hands On Games, 2016
- B.A. Social Sciences & Economics**
Bar-Ilan University, 2008
- Practical Engineer, Visual Communication**
Hadassah Academic College, 2003

SKILLS & STRENGTHS

- Leadership**
Creative Direction · Strategic Thinking · Storytelling · Process Architecture · Cross-Team Collaboration · Mentoring · Adaptability
- Creative & Technical**
Production Management · Brand & Visual Systems · UX/UI Direction · Generative AI Workflows · 3D & Immersive Design · Print Production Expert · Product-Creative Integration

TOOLS & SYSTEMS

- Creative Production**
DaVinci Resolve (Adv.), Adobe CC, After Effects, Topaz Photo/Video AI, Figma
- Generative AI Pipelines**
Freepik (Expert), Magnific, Runway, Hedra, Herra AI (infographic animations), Flux, Veo, Kling, GPT-4o (new img model), Gemini; JSON prompting, inpainting, upscaling, style consistency, hybrid AI workflows
- 3D & Interactive Systems**
Unity WebGL, PlayCanvas, Spline 3D (Web 3D engines), Mixamo, Substance Viewer; Hunyuan3D (Local), Trellis, Tripo, Rodin, Meshy, Blockade Labs, Marble AI (3D world gen), realtime interactive pipelines
- Dev & Research**
Kiro, Qoder, VS Code, Claude Code, Codex, GitHub, Ollama, Pinokio, Replicate, FAL; DeepSeek, Qwen, Gemma; Perplexity, NotebookLM

PROFESSIONAL EXPERIENCE

UVIX Studio

2010 – 2016 · 2023 – Present

INDEPENDENT

Owner & Creative Director

Operating an independent creative studio delivering customized workflows that merge concept design, cinematic video, custom AI architectures, and immersive 3D production.

Selected Commercial Projects

Beit Ha'Gefen — Large-Scale Immersive Production

Dec 2025 – Jan 2026

60 sqm four-wall interactive installation for cultural dialogue

- Architected and executed end-to-end creative production for a four-wall immersive installation designed for seamless large-format continuity and close-range viewing.
- Engineered a multi-system AI pipeline combining NanoBanana, structured JSON prompting, LLM reference tagging, and Photoshop generative refinement.
- Managed full pre-press and print execution including RGB-CMYK conversion, scaling strategy, DPI optimization, testing, and final deployment.

DigiTel Tel Aviv — Summer Campaign

Jun 2025

- Solved accurate Hebrew typography generation inside generative models by building a custom 3D-to-AI pipeline using Hunyuan 3D and local Substance Viewer rendering.
- Delivered all localized creative assets in a 72-hour turnaround.

Promee — Music-Tech Brand Film

Apr 2025

- Created the visual language and an AI-assisted video pipeline to generate localized content.
- Combined cinematic editing, camera motion paths, and generative sequences into a cohesive 2.5-minute brand narrative.

Independent & Exploratory Work

"The Next Big Bang in 3D" | Bone Bash RPG Concept

May 2025

Applied AI & 3D Production Lecture · Ludo Conference

- Presented production-ready AI and realtime 3D workflows for stylized game development and immersive pipelines.
- Demonstrated end-to-end 2D-to-3D workflows combining concept art, generative systems, and engine integration.

"Ten Li Rock'n'Roll" | AI Tribute to an Israeli Rock Anthem

Apr 2025

AI-Assisted Cinematic Reconstruction for Kan 11

- Reimagined an iconic moment from Kan 11's "One Song" podcast as a stylized fictional music-video sequence.
- Combined AI-assisted character consistency, generative motion, cinematic compositing, and editorial storytelling into a unified narrative pipeline.

RECOGNITION

- EdTech Awards**
🔗 Best Coding Solution, CoderZ – 2021, 2024
- Best of STEM**
🔗 CTE Champions, CoderZ – 2024
- Excellence in Equity**
🔗 Industry Impact, CoderZ – 2024
- Ludo Tel Aviv**
Invited Speaker – 2025

MILITARY SERVICE

IDF Sayeret Nahal
3-year elite combat reconnaissance service. Completed 11 years of reserve duty.

LANGUAGES

- Hebrew** Native
- English** Highly Proficient

PROFESSIONAL EXPERIENCE (UVIX STUDIO CONT.)

Earlier Studio Collaborations & Strategic Client Work 2008 – 2016 · 2019 – 2020
Delivered creative, branding, UI/UX, and interactive solutions for startups, agencies, and technology companies.
Selected Clients: Amdocs, Applicaster, Kaltura, SpacePharma, Central, BetterBill, Bizportal, Grey, and Gitam BBDO.

CoderZ (Intelitek Group) Jan 2020 – Jan 2023 FULL-TIME

Creative Director | Producer | Unity & 3D/WebGL Systems

STEM and robotics platform where students grades 3–12 learned coding through gamified 3D environments, virtual robotics, and global competitive leagues.

- **Rebrand & Expansion** – Led a full company rebrand in under 6 months while helping expand the platform from 5 to 11 courses across games, tutorials, teacher materials, educational assets, and marketing systems.
- **Production Pipelines** – Built the internal production workflow connecting pedagogy, marketing, developers, editors, and 15+ vendors across Israel and the US, supporting 100+ video productions, livestreams, tutorials, and post-production operations.
- **Unity/WebGL Systems** – Led UI/UX and asset workflows for Unity/WebGL educational environments, collaborating with development teams on interactive game worlds and cross-platform learning systems.
- **League Broadcasts & Game Worlds** – Produced and directed 3 consecutive international CoderZ League finals with Herzliya Studios as lead producer, art lead, and chief editor across 90-minute esports-style broadcasts combining dozens of graphic assets, videos, interviews, tutorials, winner packages, and rollout of 3 new game worlds annually.

Paymaxx LTD Oct 2016 – May 2019 FULL-TIME

Art Director | Unity/WebGL & AR Experiences

Led creative strategy and immersive product design for B2B/B2C lottery systems in highly regulated international gaming markets.

- Designed and launched **5** realtime 3D, AR, and WebGL-based gaming experiences using Unity and PlayCanvas, including flagship deployments showcased at ICE London and lottery initiatives for New York Lottery, Lotto West, and additional international lottery markets.
- Specialized in Unity-based AR systems and web-based interactive gaming environments, transforming physical scratch-card products into realtime mobile companion experiences distributed across campaigns reaching **hundreds of thousands** of players.
- Collaborated with Playtech and major New York Lottery campaign partners on interactive gaming experiences showcased to **thousands of visitors** during ICE London and large-scale international gaming exhibitions.
- Introduced integrated Unity & PlayCanvas prototyping workflows, accelerating production cycles while coordinating creative production across internal design support, engineering, product teams, and external partners.

EARLIER POSITIONS

- Art Director** (Interactive / Offline)–Gitam BBDO 2008 – 2010
(L'Oréal, Hapoalim, Cellcom)
- Senior Interactive Designer & Team Leader** –GREY Interactive 2006 – 2008
- Interactive Designer** –Gorni Interactive 2005 – 2006
- Digital & Print Designer** —Geo Media / 2eat.co.il 2003 – 2005
